## Profile

---

Recent graduate of Electrical and Computer Engineering and also junior software developer And Network Engineer with a strong foundation in database management ,software development and Computer hardware skill. My commitment to continuous learning and staying current with emerging technologies allows me to contribute effectively to projects and collaborate efficiently with teams. I am eager to further hone my skills, advance within the industry, and seize opportunities to deliver high-quality solutions.

## Education

---

### Addis Ababa University

09/2019 – 07/2024

I recently graduated with a degree in Electrical and Computer Engineering from Addis Ababa University. I have completed essential courses such as Fundamentals of Circuits, Data Structures, Signals and Systems, Network Analysis, Power Systems, Control Algorithms, Database Management, Operating Systems, Compilers, and Software Engineering.

Addis Ababa, Ethiopia

### Yenetta Code

10/2023 – 02/2024

I participated in a MERN Stack bootcamp at Yenetta Code, where I gained valuable experience working alongside experienced developers

Addis Ababa, Ethiopia

## Professional Experience

---

### Internship, Ministry of Innovation and Technology

09/2023 – 01/2024

During my internship, I spearheaded a project aimed at modernizing the inventory management system of the Ministry of Innovation. The project involved transitioning from manual methods to a computerized system. Leveraging web-based PERN (PostgreSQL, Express.js, React.js, Node.js) technology, we successfully implemented the solution, streamlining inventory processes and enhancing efficiency.

Addis Ababa, Ethiopia

## Skills

---

### Technical Skills:

- Programming Languages: Python, Java, JavaScript
- Database Management: SQL, MongoDB
- Web Development: HTML/CSS, React.js, Node.js
- Network Configuration: Expertise in configuring and managing network systems

### Soft Skills:

- . Communication (verbal and written)
- . Teamwork and Collaboration
- . Problem-solving
